

Creating conditions to help children and women who have been forced to leave their homes due to hostilities on the territory of Ukraine and the temporarily occupied territory

Today, most women are left alone with their children, as men have been involved in Ukraine's defense. They are forced to take full responsibility for the family, to save their lives and their children. Leaving home, they are left alone with their problems and need our general help, which includes:

- search and provision of housing;
- provision of food (in some cases, baby food);
- necessary personal hygiene products;
- clothes and shoes (especially warm clothes);
- some need medicines and medical care;
- essentials, etc ..

The purpose of the project::

1. Organization and provision of housing for refugees;
2. Provision of food (including children's), hygiene products, clothing and footwear;
